SPEEDY AND EFFICIENT

Lubuntu 12.04

If you are looking for a lightweight Linux that needs less CPU and will run fast even on older computers, look no further than Lubuntu. This user-friendly, lightweight Linux packs some heavyweight features, has a polished user interface, and is easy to customize.

Lubuntu is created for the "normal" PC and laptop users running on low-spec hardware. Still, Lubuntu 12.04 includes well-known applications, such as Pidgin, Chromium, Openbox, GPicView, mtPaint, Evince, Audacious, and Gnome MPlayer.
